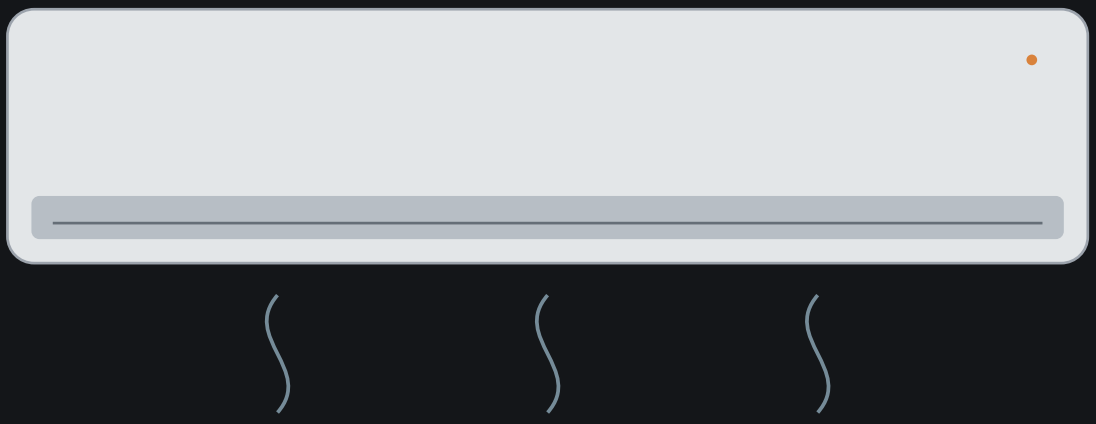
# Comfort for your space.

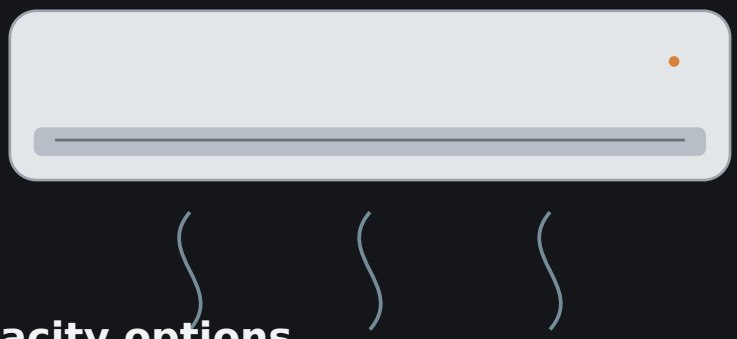
Aircon installation & servicing for homes, offices and commercial spaces in Gauteng.



**INSTALLATION / SERVICING / QUOTATIONS**

# Find the right fit.

Wall-mounted split aircons offer a compact option for individual rooms. Tell us about your space so the unit and installation can be quoted to suit your requirements.



## Common capacity options

| | |
|---|---|
| **9 000 BTU/h** | Compact room enquiries |
| **12 000 BTU/h** | Bedroom, office and living-space enquiries |
| **18 000 BTU/h** | Larger room enquiries |
| **24 000 BTU/h** | Open-plan and larger-space enquiries |

Capacity options are illustrative, not a sizing recommendation. Room dimensions, ceiling height, sun exposure, insulation, occupants and equipment heat loads affect selection.

Brands, models, inverter options, stock and warranty terms are confirmed in your quotation. Prices are available on request.

# From enquiry to comfort.

## 01 Aircon installation

New installations and replacement enquiries. We assess unit positioning, pipe routing, drainage and electrical supply requirements before confirming the work.

## 02 Aircon servicing

Cleaning and servicing enquiries for existing units, including filters, coils, drainage and operating checks according to the agreed service scope.

## 03 Fault finding & repair enquiries

Tell us about poor cooling, leaks, unusual noise or error codes. Repair work, replacement parts and any refrigerant work are assessed and quoted separately.

## Request your quotation

Send your suburb, room dimensions, photographs and preferred unit size or budget. For servicing, include the unit make, model and number of units.
